

FACEPLATES ICY VOLTE-TEL

New **"ICY"** faceplates by **VOLTE-TEL** are here for those who want efficient, but elegant and discreet protection for their smartphone. They are very thin and do not add extra bulk to your device, although they are made of PC synthetic plastic material of high quality and durability. They are pleasant to touch, with a sleek exterior and special non-slip surface on the inside.

They have suitable slots that do not require to remove them in order to use your device's functions, while offering adequate protection from scratches and everyday wear and tear. Finally they come in three colors, white, black and blue, to choose from, and switch them daily, since the installation and removal are very easy. The **"ICY"** faceplates are available for the new **Apple iPhone 6, iPhone 6 Plus & Samsung Galaxy Note 4.**
