

ELECTROPLATING FACEPLATE CASE VOLTE-TEL

The new **FACEPLATE ELECTROPLATING** case by **VOLTE-TEL** is made from excellent quality **100% clear TPU** material and is available for all the new smartphones in the market. **The discreet metallic finish at the edge of case and the hue of TPU, harmonized fully with the colors of your device** and they give it a particular elegance. Due to the special design of the inner side will exempt **from the unsightly “water stains”** at the back of your smartphone. You are now able to protect your favorite smartphone without to “hiding” it, with these special cases by **VOLTE-TEL**. Applies perfectly without interfering with your smartphone’s style, providing, at the same time, the best protection from scratches and hits. Thanks to the **raised edges it protects the screen even from falls on any flat surface**. Ergonomically designed features cutouts for all ports and control buttons. It is available in 3 different colors (**GREY SILVER GOLD, ROSE GOLD** and **FUCSHIA**).
