

HANDSFREE STEREO UNIVERSAL 3.5MM 1.2M

NSP ULTRA BASS HN30

The **NSP ULTRA BASS HN30** wired headphones will improve your listening experience and allow you to enjoy your favorite music. **With a standard 3.5mm jack connector and 1.2 meter cable length**, connect them to your preferred Smartphone, Tablet, MP3 / MP4 player, or even your laptop, and enjoy music **with dynamic 13mm** speakers while answering calls by pressing the inline controller placed on the headphone wire.

The new wired headphones **ULTRA BASS HN30** from **NSP** feature an ergonomic and outstanding design, with a **metal shell** for increased durability and a headset that sits pleasantly in the ear, allowing you to devote yourself to your music even after many hours of listening. They also have a **reinforced cable made of high-quality cord** for increased durability, resistance to frequent usage and damage, and the capacity to accompany you for a long time.

Finally, thanks to the **integrated control** and microphone in the headphone cable, you'll be able to handle your music with ease while also answering calls **at the touch of a button**.

Choose from three different colors to get the one that best matches your own style.
