

LIGHT STRIKE NEON OPTICAL SWITCHES GAMING KEYBOARD

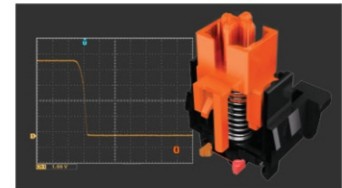

The World's Fastest 0.2 ms !

Innovative LK Optical Switch technology uses optical switch to react at lightning speed with extreme 0.2ms key response, creates more passions for gamers.

25% Faster Keystroke

LK Optical Switch travel with distance of 3mm, which is 25% faster than traditional metal switch. (Traditional metal switch travel at distance of 4mm)

Lightning Speed Response

LK Optical Switch reacts at lightning speed without lag. (Traditional Metal Switch delays 18~30ms due to metal bouncing)

SPECS	ORANGE SWITCHES	BLACK SWITCHES
Switch Type	Tactile and Clicky	Linear and Smooth
Total Travel Distance	3 ± 0.5 mm	3 ± 0.5 mm
Actuation Point	1.8 ± 0.5 mm	1.8 ± 0.5 mm
Actuation Force	40 ± 10 cN	50 ± 10 cN
Tactile Force	50 ± 10 cN	N / A

Neon Glare System

Press Fn + F12 to turn on / off the backlit.
Press Fn + ↑ / ↓ to adjust the light brightness.

Full N-Key Rollover

Full NKRO ensures each keypress can simultaneously register regardless of how many keys are being pressed or held down at a time including modifier keys. (Shift, Control, and ALT)

Water Resistant / Nano - Coating

PCB board is nano coated. Prevent damages to keyboard from accidental spills or liquid. Protect against corrosion.

Metallic Body

Metallic Aluminum Alloy surface, durable and long lasting.

Screw Enhanced Space-Bar

Dual Screws + Dual Springs + Balancing Bar equals to stronger durability.

Smart Water Flow System

Both drainage channels and holes are set in precise position, ensuring the water flows out efficiently.

MODEL B760 - 4711421953108

TECH SPECS

BLOODY'S MOST POWER SOFTWARE -KEYDOMINATOR DESIGNED FOR hardcore GAMERS!

KeyDominator offers a unique 4-core system and it is compatible for 4 various levels for all game requirements: "Low, High, Ultra, and Extreme" Suitable for MMO/RPG/FPS games and all genre of games. KeyDominator's modular build ensures you'll be prepared for whatever comes and self-editable modularity ensures full flexibility, with the ability to create a favorites tab, with only devices setting and configuration options relevant to you shown, share unique macros and settings with friends

- Key Style: LK Optical Switch
- Key Response: 0.2 ms
- Key Lifetime: 100 Million Keystrokes
- Report Rate 1000 Hz/lms
- N-Key Rollover: Full N-Key Rollover
- Backlit: Neon Glare
- Brightness: Adjustable
- Space-Bar: Screw Enhanced
